## IT'S BETTER TO BE META SAFE THAN SORRY.

You would do anything to keep your horse safe. Diets high in sugar or starch can lead to laminitis and the development of metabolic disorders.

META SAFE® is a grain free pellet containing a complete blend of nutrients at a low feeding rate. Formulated with less than 15% starch, low sugar and the added benefit of BONAFIDE®, META SAFE® is ideal to support horses on controlled diets.

META SAFE® is the safe choice for Laminitic, Cushings Disease, EMS and PSSM horses and ponies.
